Dear Hiring Manager,

I am writing to express my interest in the Graduate Intern position as advertised. I am currently pursuing my Master of Computer Applications (MCA) and have maintained over 70% in all semesters with no arrears. With a strong academic background and hands-on experience in web development and data analytics, I am excited about the opportunity to undergo IT tools training and contribute to your IT teams.

During my MCA program and Courses, I have gained practical experience in Python, Django, React, SQL, and core computer science concepts. I have developed and deployed web applications, built data-driven projects, and collaborated effectively in team environments. These experiences have strengthened my problem-solving skills and prepared me well for the written test, group discussion, and technical interviews required for this role.

The structured 6-month IT Tools training at the MEPZ facility greatly interests me because it aligns with my goal of building strong technical foundations before joining a full-time IT team. I am motivated to learn, adapt, and perform at my best throughout the internship period. The opportunity to move into a Graduate Trainee role after completing the course is an excellent career pathway that I am eager and fully committed to pursue.

Thank you for considering my application. I would welcome the chance to discuss how my skills and enthusiasm match this opportunity. I look forward to contributing to your upcoming batch of interns and growing within your organization.

Sincerely,

Muhammad Midlaj
